

# TURN CHOCOLATE SANTAS INTO THE REAL ST. NICHOLAS!

## MATERIALS

- Foil covered chocolate Santa, one for each child  
Thompson Candy Company, 4 1/8 inches tall (1.75 oz),  
Russell Stover, 4 3/8 inches tall (1.75 oz)  
Thompson Candy Company, 5 1/2 inches tall (3 oz)  
Madelaine Chocolate Company, 4 1/8 inches (2 oz)  
Madelaine Chocolate Company, flat ornament, 4 inches (3/4 oz)
- Miter pattern cut out of card stock (increase or decrease pattern, if necessary, so it fits your chocolate Santas) If you print page 2 on card stock the pattern won't need to be transferred
- Gold metallic chenille stems
- 7 1/2-inch piece for smaller Santa, 8 1/2-inch for larger
- Red metallic foil card stock (sometimes called metallic foil board) or metallic foil paper
- Cut a rectangle for each child, 5x3-inches for smaller miter, 6x3-inches for larger
- Metallic cross stickers  
Gold crosses or miniature embossed crosses

## EQUIPMENT

- Pencils
- Scissors
- Mini stapler, fastens the miter more securely than gluing (ornament miter is too small for stapler)
- Mini glue dots or tacky glue

## DIRECTIONS

1. Draw around miter pattern on wrong side of red card
2. Cut out miter
3. Fold miter at sides
4. Staple back together, matching point and lower edges
5. Bend gold metallic chenille stem piece into a crozier
6. Place miter on head; secure with a bit of glue
7. Use a blob of tacky glue to attach bishop's crozier/staff onto the figure's left hand

Voila! Santa is now the real St. Nicholas!
