

FOLDING PAPER MITERS

Make an origami-style miter—size determined by the size of the paper square

MATERIALS

Light-weight, crisp red paper (we used Wausau Astrobright red, cut to 8½-inch squares—larger squares may be cut from wrapping or fadeless paper; a 24-inch square makes a miter large enough to wear)
Construction paper is too thick to fold nicely, especially for small sizes

EQUIPMENT

Instruction sheets for each person
Gold embellishments: stickers, 3-D Scribbler paint, metallic gold marker, etc.

DIRECTIONS

- Print the step-by-step instruction sheet for each person
- The red side represents the right side; the light side represents the wrong side of the paper
- In step 5, fold the corners in at least one-inch for the small miter
- If making a large miter to wear, the size is determined by how much the corners are folded in (step 5)
- It is a little tricky at first, but once you've got it, they are simple to make

Left to right: Scribblers 3-D Paint Glittering Gold (*this is not easy to use and takes a very long time to dry—not practical for children in short group sessions*), Dayspring sticker alone, Dayspring sticker with 3-D paint; Mrs. Grossman's cross stickers by the yard, sticker alone; larger Mrs. Grossman's sticker with Pilot gold metallic marker
