“Here is St. Nicholas”

Interactive Sight Word Reader

About:

This is an emergent reader to provide students with an opportunity to learn to read and spell the sight word “here” in a hands-on way. Each page of *Here is St. Nicholas* contains a predictable sentence missing the word “here” Students will cut apart the letters to spell “here” (included), then unscramble and glue the letters into each page to correctly spell the sight word. Each page of the booklet also features pictures to support the text.

Prep:

Copy *Here is St. Nicholas* book and the corresponding scrambled word cutouts for each student. Separate book pages by cutting each 8.5x11” sheet in half and staple the books together for students.

You can separate “here” cutouts and distribute 1 word at a time in class, or provide students with full sheets of cutouts for a Literacy Center.
