

PLAYMOBIL ST. NICHOLAS

If you have a Playmobil Santa, transform him into St. Nicholas!

MATERIALS

- Playmobil Santa figure
- Red or gold metallic lightweight poster board
- Cross Stickers
- Red felt scrap

EQUIPMENT

- Scissors
- Miter & chasuble patterns
- Mini stapler
- Roll-on dry adhesive, optional

DIRECTIONS

1. Cut out patterns.
3. Use pattern to draw miter on wrong side of metallic paper; cut out.
4. Staple, using mini stapler, twice; vertically towards the top and angled near the bottom (it is important for both sides of staples to go through both layers as much as possible).
5. Decorate miter with cross sticker.
6. Cut out felt chasuble basic shape (carefully hold pattern on scrap, you don't need to draw on felt).
7. Fold felt in half, crosswise; also the pattern. Hold pattern on top of felt, cut neck opening.
9. Snip ½-inch along dotted line on back of chasuble (so chasuble will go over head).
10. Put chasuble on figure, making sure it is under the beard (remove & replace beard, if needed).
11. If desired, use a bit of dry adhesive on wrong side of chasuble, front and back, to keep it from sticking out too much..
